Solvent

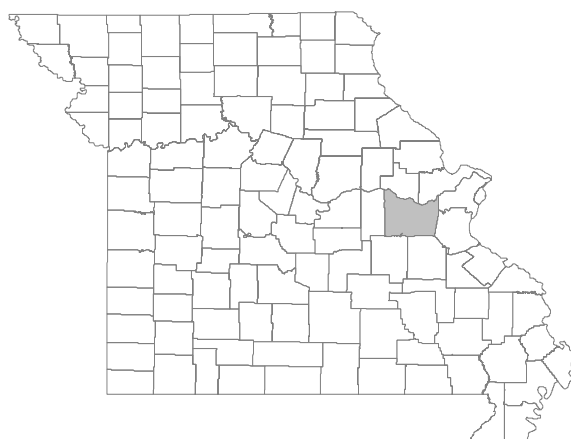

Number of Victims:
No victims reported

Types of Injuries Sustained:
No injuries sustained

Injury Outcomes:
No injuries sustained

Number of Events with Evacuations: 0

Number of People Evacuated: 0

Interesting Events:

February 2003 – Firefighters responded to a plating business after a police officer drove by the facility and noticed vapors coming from a vent. A temperature probe apparently fell out of a vat of solvents used to clean parts, causing the solution to overheat to the boiling point and release the toxic vapors. The unit was shut down and the building was vented.
